Professional Development

Safety standards and technology are changing regularly so CCS offers a variety of programs to help members stay on top of the latest trends. CCS also recognizes outstanding safety performance of companies and individuals at its annual Awards Celebration.

Education and Training

Safety Directors Forums

Safety Series

CEUs Available

Key Education Topics

OSHA Updates

Safety Best Practices

Technology

Mental Wellness

Awards and Recognition

Excellence in Safety "Crystal Eagle" Award

Outstanding Project Safety Award

Safety Innovation Award

Zero Injury Award

Outstanding Craftsperson Award

Burnie McGinnis Award

Benefit

Members receive the best resources for ongoing safety education and recognition through CCS Awards Program and the CCS Certification Program that can be used to promote your company.

Events/Networking Opportunities

CCS is the best industry platform for your company to make connections, do business and stay informed about risk management in construction and contractor maintenance. CCS' events and networking opportunities provide an opportunity to engage with thought leaders in the construction industry to help your company raise the bar in setting safety expectations in your organization and on your jobsites.

CCS holds Safety Directors Forums throughout the year covering a variety of topics. Attendees have the opportunity to learn strategies to improve safety performance and stay on top of the latest safety trends. These free events allow participants to network and share ideas with their peers.

Benefit

Opportunity to engage with safety-minded companies as well as build brand recognition and create new connections through networking.

CCS Toolkit

CCS offers a distinct array of programs and services as part of the CCS Toolkit that members can use to enhance their safety efforts. Whether it is the safety program evaluation that is part of the CCS Certification Program, the Safety Meeting App with toolbox talks, or managing workers' drug testing through the CCS Substance Abuse Program, these tools help our members send workers home safely every day.

CCS Certification Program

- Helps ensure your safety program meets or exceeds OSHA requirements
- Meeting CCS requirements have been proven to lower TRIR, DART and EMR
- Demonstrates commitment to safety when bidding on projects

CCS Substance Abuse Program

- Helps ensure you have a drug free workplace
- Allows your employees to work on participating CCS Owner sites
- Reduces need to have workers drug tested for multiple projects

CCS Safesite

- Portal to check CCS Cards for individual workers
- View availability of workers based on substance abuse testing
- Allows you to create reports to provide verification of worker availability status

Safety Meeting App

- Access to toolbox talk library
- Topics available in English and Spanish
- Inspection forms and checklists

Health and Safety Resources

- Access to Safety Director
- Special "Members Only" section on CCS website with materials on training, education and OSHA guidelines
- Tools to help ensure that workers are not only physically, but also psychologically safe

CCS Members are Safer

76%
Percentage lower than the national average for DART for Construction Contractors that meet CCS requirements

65%
Percentage lower than the national average for TRIR for Construction Contractors that meet CCS requirements

1250
Recordable incidents prevented by construction contractors in the CCS certification program

Benefit

Members have access to a variety of safety tools that can improve safety performance and ensure workers are properly trained and fit to work.
